The first one dragged out screaming and crying will be the "Oh sht it's real" moment for the rest of these vile creatures ruining this nation. That's when the rest start begging and pleading for forgiveness.

Corporatism and communism are the same fucking thing masked differently.

They clap and cheer when the gov creates more bs regulations and lockdowns to stifle small business.

They both want to destroy the middle class so they both must be extinguished.

Corporatism \neq Free market capitalism.

The cheaper the labor the better

After american wages increase hire immigrants, then hire cheaper immigrants, then hire slaves (communism).

And the government will enrich themselves by printing money decreasing the value that the population holds.

So you all better hold inflation proof assets.

The elites already know what is going to happen and are buying bunkers in new zealand on masse

▲ 5 ▼

- [Tr3nchesPT](#) 5 points 49 minutes ago +5 / -0

Corporatism is not the result of free market capitalism.

It is the result of massive corporations mingling with the government to pass favorable regulation to them and harmful regulations to their competitors.

This goes against the basic tenants of free market capitalism.

The reason Big Tech is surviving is because they are incredibly attached to the government, monopolies usually crash if left alone for too long

And when do you think this is magically going to get fixed?

Oh lets just vote Trump again in 2024 since THAT election surely wont be fixed!

No. The time for waiting for someone to fix the problem is over. No one will save America. Its up to us, the people. The time for peace is over. It gets nothing accomplished. No revolution in the history of this planet happened as a result of people peacefully waiting around. These people are the enemy and will not stop until every last freedom we have has disappeared or until we, as dissenters, are dead or in re-education camps. They must be stopped by any means.

There are still political, legal, and constitutional remedies at our disposal. Until those are exhausted, good men on the right will keep their heads down and their powder dry.

The economy is still relatively strong. All tradesmen I know are as busy as ever. The calculation will change over time as a theoretical Biden/Harris admin runs-down the economy and kills small businesses. As they lose their livelihoods for no good reason, and as they're called selfish and unpatriotic for complaining, they will begin to calculate that all civil solutions are counterproductive. That they have far less to lose than they did a year ago. That violence just might be a solution. But who wants to fire the shot heard round the world? Especially at this moment?

Don't let anyone tell you that Jan 20 is fight-or-die time. Be smarter. Choose the place, time, and means of your own fight.

So rather than fighting when we are strong, well-fed, and at a crossroads in history, when everyone senses the moment is here, when the full depth of corruption has been made plain, we should wait some more, lose our fire, lose our unity, lose this moment? Is your personal comfort really that dear that you would leave this fight to your sons?

That one hit close to home. I know a lot of people under the stranglehold of fentanyl. The word "pharmacy" is actually derived from the Greek word for witchcraft. Fentanyl is a wonder drug for those in serious constant pain.. It was never meant to be easily obtainable. It's crazy that it's almost impossible to get legitimate pain meds now, but you can get Chinese fentanyl in any city in America, inexpensively, with relative ease.

They think nothing of ruining us for their gain. Nothing. The incredible misery they created and life they stole - there needs to be an accounting. .

Absolutely correct. Their home especially. They never feel safe again.

Stick heads on pikes. Pull a Chuck Palahniuk's Adjustment Day. Before the vote can be made to reinstate the draft, readers of Reynolds's manifesto rise up, kill the targets on The List, and use severed ears taken from those killings to prove their power and become the new leaders of a new United States, split into the regions of Blacktopia, Gaysia, and Caucasia.

I haven't read any of his books since pygmy. How have his recent books been?

They all need to go. Now. The founders intent was for the everyday man, yes men not women (and I am a lady pede) to go serve one term and go back home to their life and family. It was never intended to become what it is. It's our fault. It's our doing. It's for us to undo.

I have one genuine concern. We are a top ~400 website in the country but have ~17k upvotes on the stickied post of Trump's 1/6 invitation. How can we accurately gauge who is really hearing the message? 17,000 protestors (or whatever you want to call it) is obviously not enough. Trump seems to be calling for millions to be there but it's hard to know if enough people are informed of this.
